

COLD CASE AMERICA™

Behavioral Information • Operational Code Analysis • Investigative Innovation

ABOUT

Cold Case America is a research initiative of the Blue Wall Institute, L.L.C., established by Dr. Olivia Johnson and Dr. Jorey Krawczyn. The initiative aims to develop advanced methodologies for analyzing cold case homicides, unidentified human remains, missing and endangered persons, and equivocal death investigations.

Launching in St. Clair County, Illinois, and expanding nationally, the initiative provides collaborative support, case analysis, and behavioral information services to help agencies and organizations generate new investigative insights.

NEW INVESTIGATIVE PARADIGM

Cold Case America™ introduces a new investigative paradigm centered on ideology, operational code analysis, and behavioral information systems. The framework examines how belief systems and internalized ideologies evolve into structured cognitive processes that manifest through observable criminal actions and violent behavior. This innovative investigative approach is designed to assist both unresolved cases and ongoing investigations.

Core Frameworks:

- **Operational Code Information System™ (OC-IS™)**
- **Operational Code of Sex & Violence™ (OC-SV™)**

These proprietary systems analyze:

- Behavioral patterns
- Escalation pathways
- Control mechanisms
- Access opportunities
- Ideological operational codes preceding violence

SERVICES & SUPPORT

Cold Case America™ operates exclusively in the following capacities:

- Advisory
- Educational and training
- Analytical
- Collaborative support

The initiative does not assume investigative authority or operational control of cases.

LEADERSHIP

Dr. Olivia Johnson

Former police officer, military veteran, certified medicolegal death investigator, suicidology researcher, published author, and subject matter expert specializing in violent death and behavioral information systems.

Dr. Jorey Krawczyn

Retired Chief of Police, forensic psychologist, expert witness, research analyst, criminal justice faculty member, published author, and subject matter expert on assessments, evaluations, and deaths by suicide.

MEDIA TOPICS

- Operational code frameworks
- Ideology and violent behavior
- Behavioral information systems
- Violence escalation analysis
- Investigative innovation
